NO Moisture, LOW Moisture Cleaning Solutions

COMMERCIAL GRADE

Liquid Grab **GREEN**

Low Moisture Carpet Cleaner Concentrate

Liquid Grab GREEN is a unique low-moisture carpet extraction that dries into crystallized particles that encapsulate soil. After drying, the crystals are removed by dry vacuuming. The carpet is cleaned without over-wetting and surfactant buildup, thus discouraging re-soiling.

Product Guide

Liquid Grab GREEN

General Cleaning	High-Traffic	Spot Removal	Dry Cleaning	Low Moisture For Carpets

Counter Rotating Brush / Vacuum

How to Use

Before Use: Always test a hidden section of the carpet for color fastness. Vacuum area to be treated first to remove any loose soil.

For Spots and Stains on Carpets and Rugs:

Step 1: Mix 350 millilitres of Liquid Grab GREEN concentrate with 3.5 litres of water in a clean, standard pump sprayer.

Step 2: Hold spray nozzle 30 to 45 centimetres from the carpet and apply Liquid Grab GREEN to the entire area to be cleaned. Wet but do not saturate. One gallon of mixed formula covers approximately 1200 square feet but varies according to pile thickness and degree of soiling.

Step 3: Work Liquid Grab GREEN into the carpet or rug using a brush and allow time for drying (30 minutes to 1 hour).

Step 4: Dry vacuum to remove crystals and encapsulated soil.
