

Product Data Sheet

1495 - Latex

DESCRIPTION

Spartan 1495 Carpet Latex is a Natural Latex compound for sealing raw edges of carpet and installing felt underlay to substrates.

DIRECTIONS FOR USE

Prior to joining carpet seams with heat bond tape, apply Spartan 1495 to edge of carpet and allow to dry. Doing this helps prevent loss or unravelling of tufts after seams have been trimmed.

When used to install felt underlay to subfloors apply a liberal amount to the subfloor and install underlay into wet latex.

CLEAN UP

Clean tools immediately after use with warm soapy water.

Note: Always carry out your own site test to confirm suitability of this product with your application. Additional information on physical properties, health hazards, storage, handling, and transport is available in the Safety Data Sheet (SDS), available on request.
