Dear Valued Customer,

RE: Novoplan 21 – MAPEI's environmentally-friendly products

This letter is to certify that MAPEI's **Novoplan 21** is both environmentally friendly and compliant to all federal, state, and municipal volatile organic compound (VOC) regulations.

Our **Novoplan 21** has a calculated VOC (Volatile Organic Compound) measurement of **0 g/l** which meets and exceeds the U.S. Green Building Council's LEED (Leadership in Energy and Environmental Design) requirements for adhesives and California's South Coast Air Quality Management District's Rule 1168 limits.

MAPEI prides itself in leading the industry in the research and development of products that are safer for our customers and friendly to the environment.

Yours faithfully,

A handwritten signature in blue ink, appearing to read "Robbie Tessarolo".

Robbie Tessarolo
